

Jarir Ahmed

Full Stack Developer

01615406040 | jarirahmedcseruet@gmail.com | Dhaka | [Linkedin](#) | [Github](#)

Summary

To leverage my expertise in PHP, Laravel and other technologies to create optimized, efficient, scalable, and secure solutions that drive business success with optimized, clean, maintainable code while continuously enhancing my skills in modern technologies. I am also expert in maintaining and improving software systems, addressing customer issues, fixing bugs, and optimizing performance. I enjoy solving real-world problems, working with structured data, and writing clean, efficient code. I have more than 03 years of experience of coding with Laravel and Yii Framework.

Skills

Back-end Technologies: PHP, Laravel, Yii, Symfony, Codeigniter, Lumen.

Front-End Technologies: HTML, CSS, Bootstrap, Tailwind, JavaScript, JQuery, React.js,

Other Languages: C, C++, Python, Java

Version Control: Git, Github

Databases: MySQL, PostgreSQL

Experience

ILM AI LTD | UK(Remote)

Full Stack Developer | 01/05/2026 - Present

Responsibilities:

1. Developing LMS For Students(Laravel + Next.js + PostgreSQL). This LMS contains separate Dashboards for Teachers, Students and Guardians with a main admin panel. The goal is to teach students online alongside taking exams with instant score evaluation using AI. Students can ask questions even if the teacher is not online since there is an AI answering to their questions.
